2018 Grade 12 NSC Candidates

Aan:
SAKAI Kliënte
2018 Graad 12 NSS Kandidate

There are only 5 months left to the commencement of the Grade 12 NSC examinations. SACAI would like to announce the registration for the SACAI Winter school.

Daar is slegs 5 maande oor voordat die Graad 12 NSS eksamens 'n aanvang neem. SAKAI kondig graag die registrasie vir die SAKAI winter skool aan.

At SACAI we do not see candidates as “empty vessels” to be filled with knowledge, but rather as an integral partner in education. For the 2018 winter school we propose a sharing of knowledge by experts in the various fields of education as preparation for the 2018 NSC examinations.

By SAKAI sien ons nie kandidate as “leë houers” wat met kennis gevul moet word nie, maar eerder as integrale vennote in onderwys. In 2018 stel ons vir die winterskool voor dat daar 'n deel van kennis deur eksperts in die verskeie velde van onderwys sal wees, as voorbereiding vir die 2018 NSS eksamens.

Candidates are invited to enrol for the various courses and can decide which sessions are most needed. The programme is set up to accommodate various language preferences as well as content choices. For example, a candidate can choose to attend the Home Language presentation for the novel on day one and the poetry on day two.

Kandidate word uitgenooi om vir die verskillende kursusse in te skryf en kan self besluit watter sessies vir hulle die mees noodsaaklike is. Die program is opgestel om verskillende tale en inhoud te akkommodeer. As voorbeeld kan 'n kandidaat besluit om die Huistaal aanbiedings in die roman op dag een en die gedigte op dag 2 by te woon.

SACAI will use the “flipped classroom model” where study materials and lecture notes will be sent electronically to candidates before the Winter school commences. Candidates will be requested to send through areas of concern and questions which they have on the content and discussions will be facilitated during sessions. Candidates are encouraged to bring own laptops and tablets to ensure that notes are kept up to date.

SAKAI sal van die “omgekeerde klaskamer-model” gebruik maak, waar studiemateriaal en aanbiedingsnotas elektronies aan kandidate gestuur sal word voordat die Winterskool begin. Kandidate sal versoek word om vooraf areas wat aangespreek moet word, sowel as vrae wat bestaan deur te stuur vir bespreking tydens die sessies. Kandidate word aangemoedig om eie skootrekenaars of tablette saam te bring om te verseker dat notas bygehou word.

There will be a tuckshop on the premises where candidates can buy refreshments and lunch. Alternatively, candidates can bring their own snacks.

Daar sal 'n snoepwinkel op die perseel beskikbaar wees, waar kandidate verversings en middagete kan aankoop. As alternatief kan kandidate besluit om eie verversings saam te bring.

COST:

The cost will be R150-00 per session. Candidates are allowed to choose as many sessions as they would like to attend.

KOSTE:

Die koste sal R150-00 per sessie beloop. Kandidate word toegelaat om soveel sessies te kies, soos benodig word.

This winter school are aimed at **SERIOUS** candidates who want to improve their performance

Hierdie winterskool is gemik op **ERNSTIGE** kandidate wat hulle prestasie wil verbeter.
